Property Information

If we are planting a food plot, you might have already done some preparation, or you might only need a few services from us. Please check the services below that you would like to have done.

Mowing of existing grass stand/Burning existing area

Spraying Pre-emergents (for summer plots only)

Bottom Plowing (only for certain crops, not winter fields unless desired)

Cultivation of field for row cropping (corn, etc.)

Broadcasting of seed and fertilizer

Cultipacking of seed (instead of being disked in)

Row planting with seed drill

Herbicide and/or Pesticide Treatment

Overlay with nitrogen (after growing has begun)

Lime addition

Inoculation of legumes before planting

If you would like one of our pre-made food plot packages, please choose the one below. If you would like a custom mix, please fill out the area at the end and we will assess the mix you have provided.
